

Welcome,

Revolution Marine was founded with one very simple mission in mind, to supply proven, top quality offshore performance accessories at a fair price, and we have fun doing it!

We back this claim with 30 years of performance marine experience coupled with equal Design and Manufacturing Engineering experience. This allows us to bring you what few others can, products not only designed with efficient manufacturing and quality control in mind, but products designed, tested, and proven by people who use them. We will offer nothing to you that we would not put on our own boat.

Quality high performance marine products at affordable prices! Now that's Revolutionary

Revolution Marine Exhaust Horsepower Comparison

## Dyno Proven!

Revolution Marine performance exhaust systems are proven to produce more torque and horsepower than the stock OEM center riser manifolds by as much as 40 horsepower! The advanced runner design mates casting technology with efficient geometry and the result is an economically priced performance manifold that truly sets the pace.

Whether you're looking for a reliable way to squeeze a few more ponies out of your stock 330, or ensuring your new 540s can breathe easy, Revolution Marine has the answer for you!

Large riser cross section and sweeping bend maximizes exhaust flow

Cast in dam to prevent water reversion

Water transfer hose eliminates severe engine damage caused by water leaks in riser gaskets

Fully water jacketed tubular design allows exhaust to flow smoothly to the riser

## Built To Perform!

At Revolution Marine we know there's more to performance than horsepower alone. That's why Revolution Marine manifolds have built in safety and reliability features like:

- ★ Hard anodized water jackets for salt water protection
- ★ "Dry" riser gaskets ensure against hydro-lock
- ★ Built in reversion dams allow for more cam overlap

## Priced Right!

With all these benefits you might expect the price of poker to be quite high. Well save that kitty for your next poker run because Revolution Marine delivers not only performance and reliability, but outstanding value to match!

1002001	Big Block Chevy Cast 4" Riser, black	\$1,049
